

Endeavors Review

Welcome the Endeavors Review.

This is the month-in-review newsletter for Huron Academic Endeavors Cooperative Center. Enjoy!

You're Too Sweet! A Tour of Chocolate

January's field trip was the tastiest one yet! We did a self tour of the Sander's Chocolate Factory. Included in our morning tour, we ate ice cream together and taste-tested samples of their milk chocolate sea salt caramels—fresh off the assembly line.

The factory process was incredible! We watched the caramel melt, move down the assembly, get covered in chocolate and bake. Another machine sprinkled sea salt from 50-pound bags of Cargill salt, and then it baked again. Finally, it was counted and packaged—by hand!

HAE Launches Open Enrollment Events for February

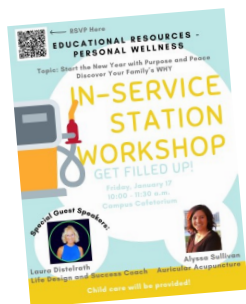

HAE has a ton of great programming available to the public and other homeschool families! You can register now for Sports and Skills Camps: Tennis 2025 and Donuts and Science!

HAE is hosting a series of sports camps, designed with a family's time and budget as the priority. Enjoy immersion athletics and open gym all year long with Play Endeavors! It starts with tennis in February! Register [here](#).

HAE is continuing its science series on Friday mornings! Donuts and Science: Weather Science continues on February 14 and 28! Register [here](#).

in-Service Station Workshop: Our Teachers Get Filled Up!

It was an insightful morning for our campus-classroom teachers and home-classroom teachers. HAE presented its

first in-Service Station workshop

with guest speakers, Laura Dis-telrath and Alyssa Sullivan. Laura helped us discover our “why.” and Alyssa is an auricular acupuncturist, who helped us have a few minutes of relaxation and detox!

NEW PROGRAMMING ANNOUNCEMENT: Little Endeavors classes start in March!

HAE has a new program for our smallest learners—our babies! Little Endeavors Infant Playgroup and Mommy Support is coming soon! This weekly class is designed for weekly inspiration and weekly aspiration for baby and mom.

Little Endeavors will launch on Monday mornings, 9:00-9:30 a.m., starting March 3. Monthly memberships and more information are

available [here](#).

Animal Science with Donuts and Science

January was Animal Science month with Donuts and Science!

During week 1, we learned about hibernation, adaption and migration! Students even tested the warmth of blubber in ice water.

During week 2, HAE hosted Timber Creek Petting Farm for a live animal show!

We saw cool animals, including a baby tortoise that was already more than 40 pounds (that's one big baby!)

A Look Ahead...

In February, we are looking forward to our next field trip—a gymnastics runaround morning with Flames Gymnastics! And speaking of exercise, Sports and Skills Camps: Tennis 2025 starts in February! We'll celebrate Valentine's Day together! And, finally, our next session of Donuts and Science: Weather Science will begin.

We are also going to enjoy our winter break and unwind. Even in the midst of great activity, sportsmanship, school work and fun, it's important to take time to re-connect and slow back down.
